Visual Studio Code

EXPERIENCE

Imagine Studio - Frontend Developer

August 2022 to present

At Imagine Studio, I work as a Frontend Developer, leveraging a robust tech stack that includes React Native, React.js, Vue.js, Redux Toolkit, JavaScript, Bootstrap and Firebase. My responsibilities encompass developing and maintaining dynamic, user-friendly web applications. I collaborate closely with cross-functional teams to deliver high-quality software solutions, ensuring responsive design and optimal performance across various devices and platforms.

Hospital Italiano de Buenos Aires

Therapy groups - Stretching - concious training

July 2010 to December 2021

At Hospital Italiano de Buenos Aires, I contributed as a professional in therapeutic groups within the 'Aprender Salud, Programa Bajando de Peso'. Also my role involved conducting stretching and training classes designed to support weight loss and improve overall health. I collaborated with an interdisciplinary team of healthcare professionals to provide comprehensive care and support to participants, ensuring a holistic approach to their health and wellness.
